October 2014

Welcome Fall

Happy Fall! It is such a privilege to live in an area with four wonderful seasons.

With the temperature change some aspects of your composting will change too. Soon the pesky bugs will no longer be an issue. The warm fall days will be followed by cooler evenings.

Fall Compostable's

Fall Weather brings fallen tree leaves. These leaves are compostable. If you would like to get rid of your leaves we accept them, at our facility free of charge. Visit us at 3225 Agard Rd Trumansburg NY 14886.

We can not accept the leaves in the compost totes. When added in with the food scrap waste, the leaves become a heavy solid clump, and do not break down as well.

Your halloween pumpkins are compostable. Once they have served their spooky purpose you can add them in with your food scrap waste.

Please join us in welcoming Bobby Seymour our new Operations and Marketing Manager. Bobby has 35 + years experience of owning and operating companies in the local solid waste industry. He is looking forward to meeting and assisting you in determining your compost needs,

Compostable flat wear:

A friendly reminder, we will no longer be accepting compostable Forks, Spoons or Knives as of January 1, 2015.

We are happy to test new and different compostable disposables. If you have a product that you would like tested, please contact us.

Ithaca Times Article:

Have you seen the article in the Ithaca Times regarding the Compost Expansion Program? Below is the link to read the article. Pictured above is our new windrow turner.
